

PLASTIC INDUSTRIAL PACKAGING SECTOR

ANGOLA

FLO-TEK®

Flow better with us

OVERVIEW

FLOTEK industrial packing unit was incorporated in the year 2009 with manufacturing facilities in PIV KM25, Viana, Angola. It has evolved to serve the industrial packaging needs of Angola and diversify our portfolio & provide import substitution.

Product range

1. Shrink film.
2. Stretch film.
3. Preforms.
4. Pails.
5. Closures
6. Mutli purpose crates.

1. Shrink film

Shrink film

Flotek's shrink film EN is an especially versatile cross-linked shrink film with outstanding performance on a wide range of packaging machines. Low seal and shrink temperatures along with perfect shrinkage results and low coefficient of friction offer great potential for all applications. It can down gauging the microns of normal grade with superior drawdown and enhanced toughness.

Applications- Water bottles packaging, beverage collation shrink, blown film, form fill and seal packaging, heavy duty bags and multilayer packaging film.

SHRINK & SEAL PROPERTIES

- Very strong seals
- Quick shrinkage
- High shrink force
- Outstanding stability

SPECIAL FEATURES

- Excellent clarity and gloss
- Easy to use
- Excellent hot slip properties

EN is available in: CUSTOMISED gauges and microns with center sleeve or single wind.

2. Stretch film

FLO-TEK[®]

Stretch film

Flotek's stretch film EN is an **Stretch wrap** and or stretch film are a stretchable plastic film that is wrapped around cartoons and pallets. Stretch elastic properties keep items tightly bound together for packaging, shipping, and storage. Economical polyethylene hi-clarity hi-cling stretch wrap film is offered in hand stretch film and machine stretch film.

Film Thickness- 23um

Roll width- 500mm

Applications-

- Pallet wrapping. Clear machine stretch film for conventional automatic & semi-automatic pallet wrapping.
- Fast wrapping & film stretch ability up to 350% on automatic pallet wrapping machines with low noises.
- Also known as machine pallet wrap & stretch wrap.
- Reduces material cost & film waste.
- High clarity for effective inspection of goods.
- High puncture resistance with multi-layer structure.
- Super tight load stability for high-security storage & transit .

3. Preforms PET

- We manufacture preforms for beverage industries, water companies, cooking oil packing, juice and liquid detergents plants.
- Preforms range 300ml-6000ml preforms.
- Different necks and sizes.
- 13grms,16grms,18,5grms,24grms, 32grms,82grms and 92grms.

4. Pails

- We manufacture plastic pails for paint industries, lubricants sector, detergents companies, bulk packing industries and adhesive plants.
- Product range 0.5ltr-23ltrs pails.
- Different shapes and sizes.
- 0.5ltr, 1 ltr, 5ltrs,15ltrs,18ltrs & 23ltrs.

5. Closures

- Sacmi compression moulded closures technology with precision and performance.
- We manufacture different ranges.
- Neck range-
 - 1811
 - 1810
 - TST 30mm
 - TST 29mm
